USER INTERFACE AND DESIGN

EXPERIMENT – 7

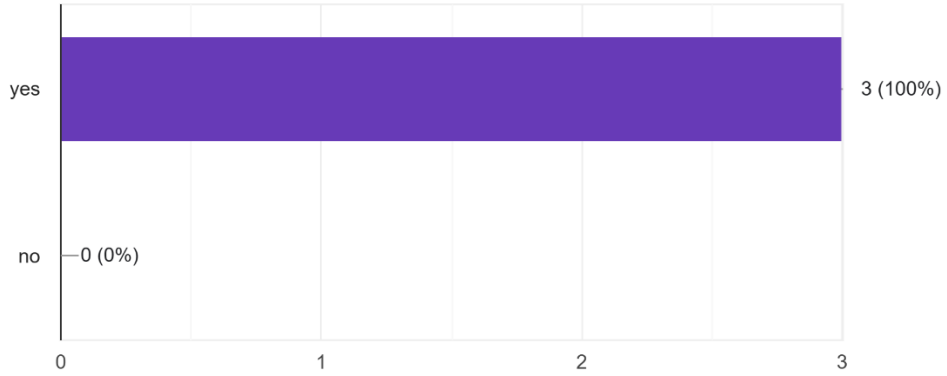
Name :Sheik Noordeen Roll No : 240701494

Experiment with different layouts and color schemes for an app. Collect user feedback on aesthetics and usability using GIMP(GNU Image Manipulation Program (GIMP)

Google form feedback responses :

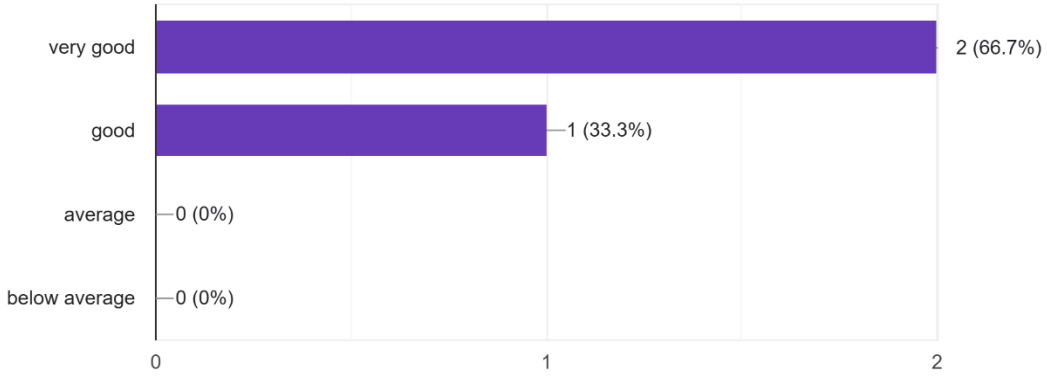
Have you reviewed the prototype ?

3 responses



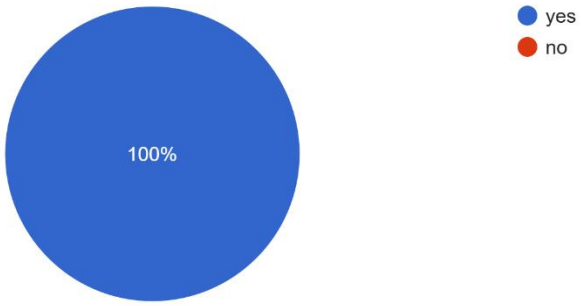
How do you feel about the color scheme?

3 responses



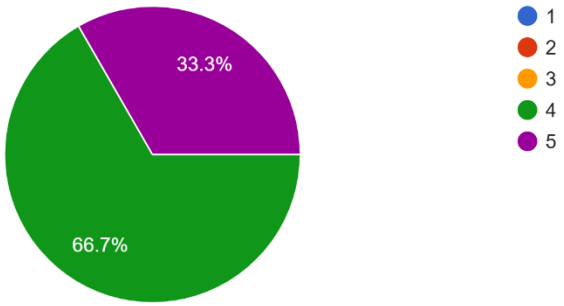
is the text readable and clear?

3 responses



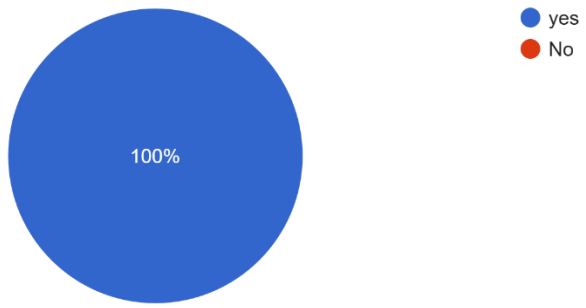
Does the layout look clean and organized

3 responses



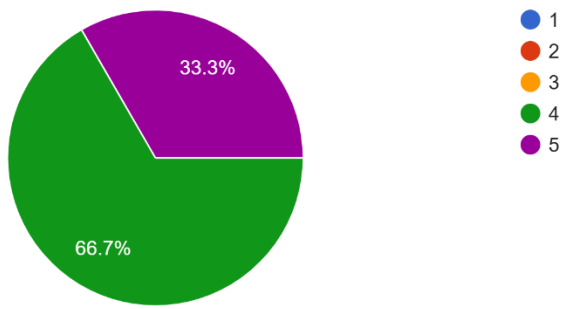
Are buttons/icons intuitive?

3 responses



How much u rate overall?

3 responses



DESIGN REFINATION :

- Change Color scheme :
  Users might get bored of using simple colors , so instead of simple colors using gradient colors may excite the users.
- Animation effect for submit :
  In modern days, animative effect for simple things may captivate user eyes instead of simple feedback version in text
- Dynamic Status effect :
  Instead of text versions with updating status , dynamic updation of each phase may make user interface more reliable
